# AgTech 国际农业展讲座会

## AgTech International Expo's Seminar

### 17.05.2024 (星期五 FRIDAY)

讲堂 1 HALL 1			
时间 Time	主讲 Speaker	讲题 Topic	语言 Language
10am – 11am	张贵洪	了解树木的器官和功能才能种出好树	中文 Mandarin
11am – 12pm	Aliyah binti Mohd Yahaya	Apakah masa depan bidang penanaman sayur-sayuran masih menguntungkan?	Bahasa Melayu / English
12pm – 1pm	Alan Tam	种植基础，认识您的土壤（新手必学）	中文 Mandarin
1pm – 2pm	黄振盛 Ng Chin Sheng	透析如何减少榴莲树产後黑头病的方法 Techniques to Reduce Post-harvest Canker Disease on Durian Trees	中文 Mandarin
2pm – 3pm	Mr. Daniel Lim	The Future of Durian Farming 榴莲种植的未来	English / 中文 Mandarin
3pm – 4pm	Mr. Wong Yong Oon Mr. Kevin Ong	施肥时间的重要性，公司产品的见证 微生物对土壤与植物的重要性，公司产品的特点	中文 Mandarin
4pm – 5pm	ACM	采用全方位策略以增强虾子的抗病能力 Mengadaptasi pendekatan holistik untuk peningkatan daya tahan penyakit pada udang	中文 Mandarin / Bahasa Melayu
5pm – 6pm	Gan Hwee Yiam	Introduction of Malaysian Good Agricultural Practice (myGAP)	中文 Mandarin

讲堂 2 HALL 2			
时间 Time	主讲 Speaker	讲题 Topic	语言 Language
10am – 11am	Kuhn Kittisak Vittayakom	An update on Durian planting practices in Thailand	English
11am – 12pm	Ti Yu Hang	轻松防治榴莲头号杀手“黑头病”的诀窍分享	中文 Mandarin
12pm – 1pm	Tan Joo Sheng	榴莲篇：以虫治虫，以菌治菌的完美结合	中文 Mandarin
1pm – 2pm	林振琪 Lim Chin Khee	Pest and disease issues and challenges	中文 Mandarin / Bahasa Melayu
2pm – 3pm	JY Tan 陈隽彦	科技助力榴莲树增收：无人机与水刀技术的应用 Utilizing Technology-Integrated Operational Management to Enhance Durian Tree Yield: Unmanned Aerial Vehicles and Water Blade	English / 中文 Mandarin
3pm – 4pm	Mr. Alcent Lim	提升榴莲产量的栽培技术 Cultivation Techniques to Increase Durian Yield	中文 Mandarin
4pm – 5pm	Kuhn Kittisak Vittayakom	An update on Durian planting practices in Thailand	English
5pm – 6pm	En Ahmad Yusuf bin Mohd Kamil	Plant Variety Registration Pendaftaran Varieti Tumbuhan	Bahasa Melayu

**AGRICULTURAL CHEMICALS (M) SDN BHD**

ACM ditubuhkan pada tahun **1969**. Kini, **ACM** telah berkhidmat melebihi **55 tahun** untuk komuniti pertanian di Malaysia dengan menyediakan penyelesaian dan produk yang terbaik.

- 20 Penyelidik Professional** menyediakan penyelidikan dan pembangunan produk berkualiti
- > 80 Kakitangan Pengembangan** meliputi seluruh Malaysia
- >100 produk** memberikan penyelesaian yang menyeluruh
- >10 jenis** mesin penyembur untuk memenuhi keperluan mekanisasi di lapangan
- 62 ekar tanah di Selama, Kedah** dikhaskan untuk tujuan penyelidikan dan pembangunan penyelesaian ACM
- >1500 Palet** berkemampuan pengendalian digudang
- Kemudahan Makmal-** untuk jaminan kualiti produk
- >20 Fasiliti Pengeluaran** untuk menghasilkan pelbagai jenis formulasi berkualiti.

Penyelidikan intensif dilakukan untuk memastikan keselamatan pengguna dan tanaman anda.

**ACM** 于1969年成立。在马来西亚农业领域拥有超过**55年**历史和经验，为大马农业界贡献一站式相关产品和解决方案；为用户和作物安全进行钻研，确保产品使用无虞。

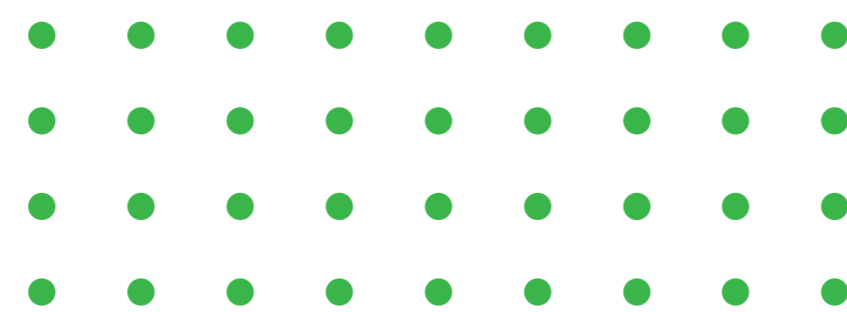

- 20位专业研究人员。
- 80位专业人员驻守马来西各地区。
- 100种产品满足您的农业需求与解决方案。
- 10种型号农业机械舒缓人手短缺问题。
- 位于吉打州士拉玛县，占地**62英亩**的研发中心。
- 可储藏超过**1500托板**的货物。
- 实验室设备确保产品符合严格的品管指标和安全指标。
- 20种生产设备以生产各种配方类型。

我们针对使用者和农作物的安全性进行钻研，确保产品使用无虞。

**ADVANSIA SDN BHD**

Advansia Sdn Bhd is a local agrochemicals company operating in Malaysia. Established in 2007, the company was built on providing high quality and affordable off-patent products to local farmers namely rice, vegetables & oil palm, thereby giving them a choice for more cost-effective crop protection solutions. To date, Advansia Sdn Bhd is marketing more than 100 products in Malaysia. These products include herbicides, insecticides, fungicides, rodenticides, molluscides & plant growth regulators. We consistently provide high quality products with reasonable prices in line with our business slogan of "International Standards, Local Prices". Our company business office is located in Pulau Indah, Port Klang, together with warehousing facilities. We have a group of qualified and dedicated staff to serve the channel members, farmers and plantation sector.

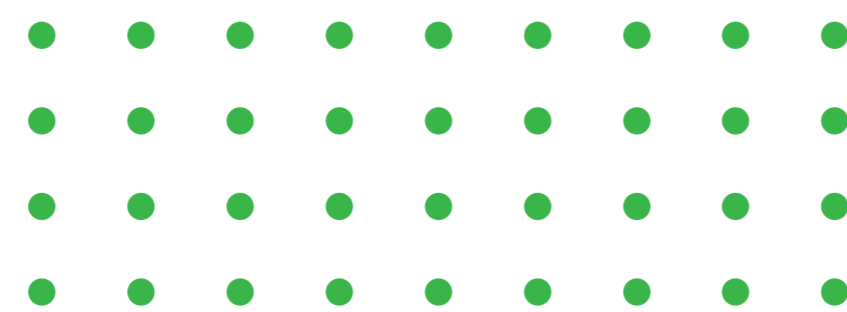

Advansia Sdn Bhd 是一家在马来西亚经营的本地农业公司。该公司成立于2007年，致力于为当地农民提供高质量且价格实惠的非专利产品，即水稻、蔬菜和油棕，从而为他们提供更具成本效益的作物保护解决方案的选择。迄今为止，Advansia Sdn Bhd 正在马来西亚销售100多种产品。这些产品包括除草剂、杀虫剂、杀菌剂、杀鼠剂、杀软体动物剂和植物生长调节剂。我们秉承“国际规格，本土价格”的经营口号，始终如一地提供价格合理的高品质产品。我公司营业办公室位于巴生港英达岛，并设有仓储设施。我们拥有一批合格且敬业的员工，为渠道成员、农民和种植业提供服务。

Fertilizers & Nutrition 肥料及营养

**AGKAIZEN**

Kaizen (改善), a Japanese term representing continuous improvement, has been the guiding principle of AGKaizen's journey.

In 2016, AGKaizen introduced the Intrepid Trio, a fully natural fertilizer with OMRI certification, from the USA to Asia. This initiative extended from Japan to Australia and from the Philippines to Pakistan, with the goal of promoting the use of natural fertilizers among farmers.

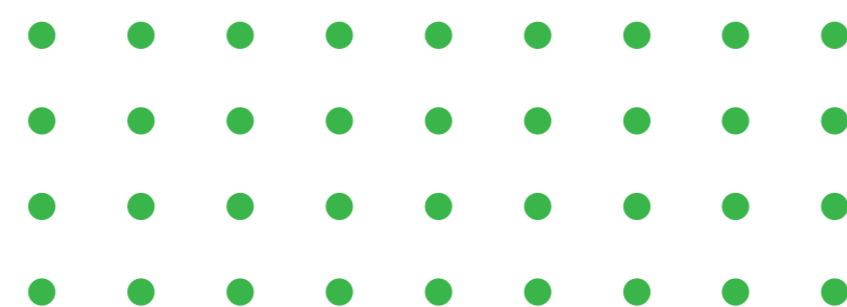

In late 2023, AGKaizen was appointed by the leading Japanese NPK producer in Southeast Asia as the sole importer for Malaysia, a pivotal moment in our dedication to the agricultural sector. This partnership reflects our commitment to delivering consistent, high-quality products to our users while nurturing enduring relationships with our partners.

Embracing the principles of kaizen (改善), we are continually striving to improve and better serve our customers, like a Japanese craftsman.

Fertilizers & Nutrition 肥料及营养

We are specialists in supply of

1. Fertiliser

- Chemical / Organic Foliar Fertiliser
- Semi-Organic Granular Fertiliser
- Water Soluble Foliage / Dripping Fertiliser

2. Pesticide

- Fungicides
- Herbicides
- Insecticides

3. Other

- Plant Growth Regulator
- Soil Conditioner
- Surfactant / Wetting Agent
- Latex Coagulant

Our Laboratory Services:

- Pesticide Residues Analysis
- Pesticide Content Analysis
- Pesticide Physical-Chemical Properties Analysis

**AGR Smart (M) Sdn Bhd** (442495-V) specialise in processing and manufacturing pesticide and fertiliser product. It is located in Kulai, Johor and was founded in 1997. The company adhering to the concept of "...Smarter Way for Crop Caring", is a professional pesticide research, production, sales and service one stop centre (own brand and toll manufacturer).

**AGR Smart Research Laboratory Sdn Bhd**(497779-X) as a subsidiary company, operates independently and has ISO 17025 certificates, specialises in pesticide analysis (physical-chemical test and pesticide residue test). The Laboratory support the testing service for pesticide registration in Malaysia and pesticide residue inspecting in foods (fresh fruits or vegetables) against the sample batch on the shipment of consignment prior to its sale, supply or distribution to other country.

AGRI MAX INNOVATIONS VENTURES

农业需要不断创新，新一代农业更需要重视大环境健康的重要性，环保肥是一种特别针对土壤污染以及化学污染为基础而研发，这是我们保持激情的秘密。

RFK环保肥是我们一项专利技术，它能够将资源转化为高质量肥料。同时活跃度比起一般高达200倍，当我了解这技术潜力时，我深受鼓舞，并决定将其引入肥料行业。我相信，通过推广和不断见证RFK环保肥，我们可以实现资源更大化利用，减少重金属和环境污染问题，并为农业提供可持续发展的速解方案。

AGRI MAX INNOVATIONS VENTURES

农业全新技术  
环保肥

RFK RECYCLE FERTILIZER  
RFK 环保肥  
THE KEY TO OUR FUTURE EARTH  
地球钥匙，纯净如初

3 大技术特点

- 增加氮吸收
- 增强抗病率
- 降低重金属

Agricultural Planning & Management Service 农用规划及管理服务

**ALAMGRO AGRO**

ALAMGRO AGRO, “三豐”, 意为天时地利人和, 农业丰盛、丰收。创始人自1990年起商业化种植榴莲、菠萝蜜、莲雾等热带水果, 亲力亲为, 积累了丰富的农业种植知识。我们坚信要使农民达到高品质与高产量的水平, 土地选择、水利调控、营养供应、人力管理等都缺一不可。大马农业进步靠的是广大农民经历无数尝试、分享经验的精神。我们希望传承这样的精神与技术, 为后来者提供可复制的经营模式, 即农业规划与管理服务, 增强大马农业生产力。

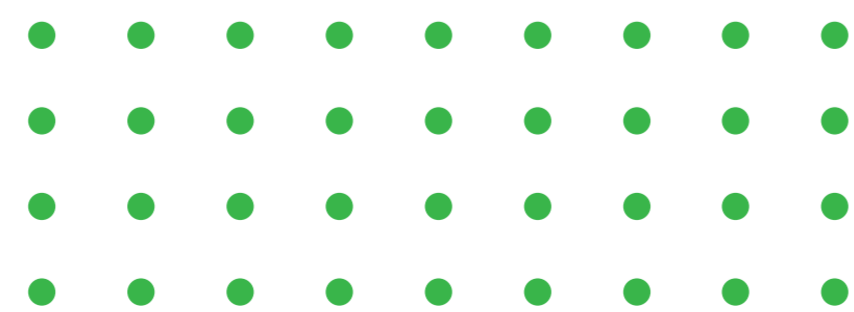

ALAMGRO AGRO, known as “Sanfeng” in Chinese, symbolizes the harmony of timing, location, and people, leading to abundant harvests in agriculture. We firmly believe that to achieve high quality and high yield in crops, aspects like soil, water resources, nutrition, and manpower are all indispensable. The progress of Malaysian agriculture relies on the spirit of countless trials and shared experiences among farmers. We aspire to carry forward this spirit and expertise, providing replicable business models for newcomers to enhance Malaysia’s agricultural productivity. Since 1990, the founder has commercially cultivated tropical fruits such as durian, soursop, and wax apples, accumulating extensive knowledge in agricultural cultivation through hands-on experience. Over the past 30 years, he has recognized the vast knowledge that newcomers to agriculture must grasp, including land selection, water resource management, nutrient supply, and manpower management. Our goal is to offer comprehensive and replicable agricultural management services, focusing on agricultural planning and management, to serve the vast community of farmers.

ALL COSMOS INDUSTRIES SDN BHD

All Cosmos Industries Sdn Bhd is a leading manufacturer of environmentally friendly fertilizers, aiming to reduce reliance on harmful chemicals that harm ecosystems. Our products promote natural plant growth and improve soil quality. We're committed to protecting the environment and envision contributing positively to this goal.

We offer consultation services on agriculture and related matters, backed by our own research and development capabilities. ACI, established in 1999, focuses on producing high-quality bio-chemical and bio-organic fertilizers.

To meet growing demand, we expanded with a second plant in East Malaysia in 2013 and plan further expansions overseas. We've been recognized for our commitment to quality with the ISO 9001:2000 Certification.

ACI manufactures 30 different types of fertilizers for the Malaysian and Asia Pacific markets, catering to various crops like oil palm, vegetables, fruits, flowers, and rice. Our products are exported to several countries in the region.

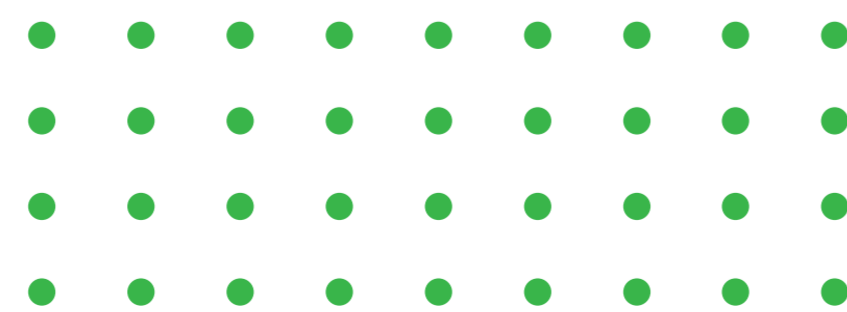

Our success and customer acceptance reflect our dedication to technology, management, and product quality. We'll continue to leverage our experience and expertise to enhance shareholder value.

大壮硫酸钾生物结果肥，您丰产品质的首选!

- ✓ 含硫酸钾提高增强果实抗病及耐贮性，减少裂果，提升水果甜度和口味
- ✓ 改良土壤结构，恢复土壤活力，提升土壤保肥及保水能力
- ✓ 含多种天然矿物质和微量元素
- ✓ 减少氮磷钾的流失与蒸发
- ✓ 丰富的氨基酸和腐殖酸
- ✓ 最佳比例，适用于结果期
- ✓ 科学技术微生物研发 提供养分及预防病害
- ✓ 低磷减小种子大小

榴莲肥料。

N: 10; P<sup>2</sup>O<sup>5</sup>: 5; K<sup>2</sup>O: 25

大壮榴莲专用 生物有机复合肥 健康的土壤是农业的基础。土壤提供植物生长所需的养分、水分、氧气和有机质。添加剂有效预防肥流失的有机复合肥，比例为80%化学肥和20%有机肥。一步到位，既可节省农民的精神力、金钱与时间。产品里的添加剂可有效控制土壤里的氮肥，预防氮肥流失，以便农作物有足够的时间吸取氮肥。同时添加剂也可释放土壤里的氧气，提高土壤里氧气量使微生物活跃，改良土壤结构，提高农作物产量。

Agricultural tools & Equipment 农用器具及设备

**AONIC AGRICULTURAL TECHNOLOGY**

Designed and manufactured by Aonic (Formerly Poladrone), Mist Drone is an innovative blanket spraying drone that revolutionizes agricultural practices. With its cutting-edge technology, Mist Drone offers superior wide area coverage at unmatched efficiency, making it the go-to solution for blanket application on paddy fields, farmlands, and open field crops. This drone ensures premium crop protection while significantly reducing costs compared to traditional methods. Moreover, it not only accelerates the spraying process but also enhances safety for farmers and the environment.

Mist Drone is proudly manufactured locally and fully supported by Aonic production facility in Malaysia. Additionally, convenient drone maintenance services are available at Aonic Service Centres strategically located across the region, ensuring optimal performance and longevity of this advanced agricultural tool.

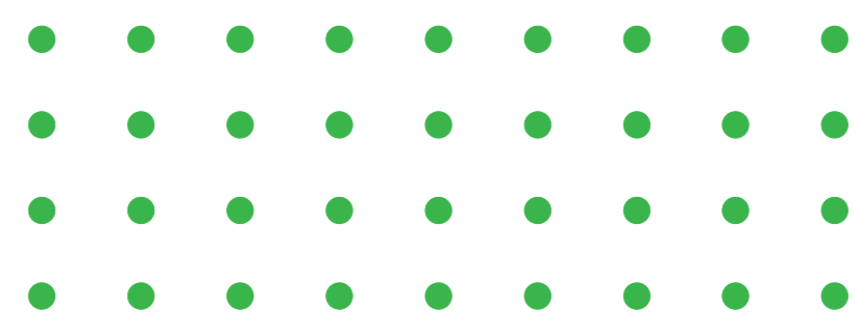

The advanced technology integrated into Mist Drone includes GPS-guided navigation, obstacle sensing systems, and real-time data monitoring. These features allow for precise and efficient spraying while also reducing the chances of accidents or mishaps. Furthermore, Mist Drone is equipped with a high-capacity tank that can hold up to 40 liters of pesticides or fertilizers. The battery life of this drone also allows for longer flight times, providing maximum coverage with minimal downtime.

**AONIC Agriculture**

Aonic Agriculture pioneered point-to-point agriculture spraying solutions in the Southeast Asian region. Its Oryctes & Mist Drone autonomous agriculture drones were designed and developed in-house, enabling the agriculture community to manage their farms and plantations effectively. Using drones for data collection, Aonic Agriculture processes and analyses various data points to provide recommendations to oil palm plantation owners. Aonic Agriculture also provides financing under its AonicFlex programme to lower the barrier of entry for farmers to adopt agricultural drones.

**BIOLIFE AGRICULTURE FARM**

Biolife Agriculture Farm is involved in R&D and mass production good quality in vitro and nursery plantlets from elite selected clones through micro propagation tissue culture technology. We have the capabilities and abilities to produce various types of banana and pineapple plantlets. We are committed to deliver plants that are healthy with higher survival rate to our clients. Besides, we also supply wide range of water supply accessories and automated irrigation system for agriculture.

Tissue cultured banana plantlets from selected clones:

- Pisang Berangan
- Pisang Nipah
- Pisang Nangka
- Pisang Mas

Advantages:

- Disease Free.
- Uniform growth
- Early maturity.

- Provide cost effective customize automated irrigation solution.
- Reduce water usage while saving labor.
- Wide range of sprinkler parts and accessories.

### CHOW YANG AQUARIUM & PET SUPPLIES SDN BHD

Chow Yang Aquarium & Pet Supplies Sdn Bhd is a leading supplier of aquarium, pet products, and agricultural supplies in Malaysia. With over 20 years of experience, we import and distribute a wide range of high-quality products from both local and international brands through our extensive distribution network.

Our expertise extends beyond aquariums and pets to include a strong background in agriculture. This diverse experience allows us to offer a comprehensive range of products and services to our customers.

Driven by our passion for pets, aquatic life, and agriculture, our knowledgeable team ensures that customers receive expert advice and the best products to meet their needs. We pride ourselves on our commitment to customer satisfaction, offering a personalized shopping experience and reliable after-sales support.

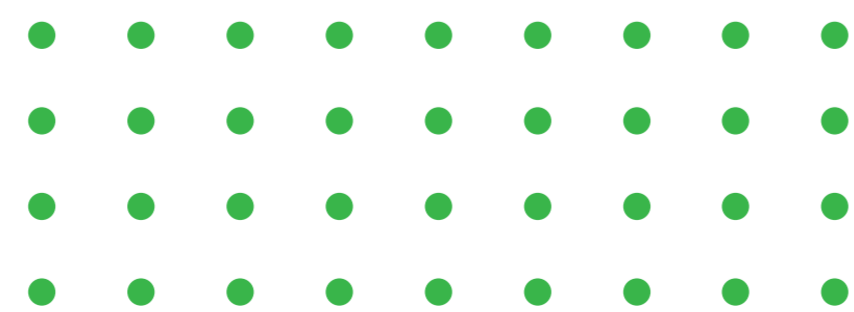

Visit our booth (BOOTH B30) at the expo to explore our latest products and discover how Chow Yang Aquarium & Pet Supplies can enhance your aquatic, pet care and agricultural experience.

**CPR FEED SDN BHD**

可信赖的一站式伙伴

在辜国良先生的领导下，成邦饲料有限公司已发展成为一家多元化的一站式农业产品和服务供应商。

公司不仅经销各种动物饲料，还开发了广泛的产品以及完善的水产养殖与农业解决方案。制造相关的器材与工具，为农民提供全面的选择，有效地协助水产养殖乃至农业耕作领域上发挥更大的功效。

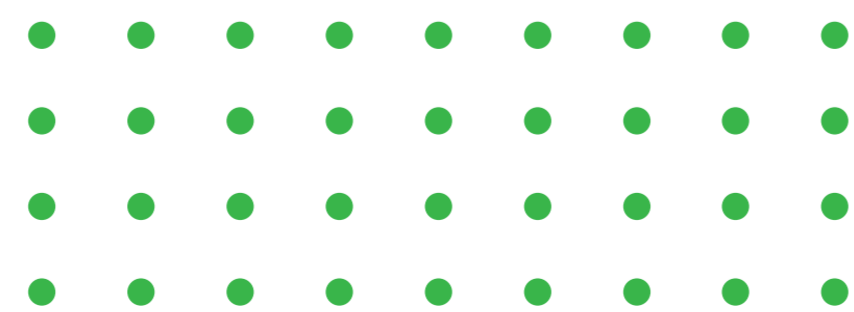

渔网不但广泛用于水产养殖，而且还专用于覆盖水产养殖池的上端，以防止鸟类和其他捕食者捕捉池中养殖的鱼。

各种保护网用于保护水果，免受松鼠的破坏。榴莲网避免果实掉落地上。

Aquaculture System 渔业科技

# RAS 循环水室内养殖科技

## Recirculating Aquaculture System

RAS(循环水系统)养殖技术代表着鱼虾类养殖的未来,其先进的水循环系统实现了高效的水资源利用和环境保护。

相较于传统的养殖方式,RAS带来了诸多优势:

- 食品安全** : 无使用抗生素,益生菌控制技术养殖,使所有养殖的水产品达到无公害食品的安全级别。
- 环境友好** : 通过循环水系统,有效降低废水排放,减少对环境的污染。
- 水质控制** : 精确控制水质,减少疾病传播,提高养殖效率和经济效益。
- 水资源节约** : 无需大面积水域,循环使用水资源,大幅减少水的浪费。
- 强大的适应性**: 无论是山区高海拔地区还是城市中心,RAS都能灵活应对,适用于各种规模的养殖场。
- 多样化的养殖**: 适用于各类鱼类虾类养殖,无论是淡水还是海水鱼虾,轻松应对。
- 未来发展潜力**: 作为一项具有前景的鱼虾类养殖技术,RAS将为您的事业注入新的活力和生机。

如果您渴望开展有前景的水产养殖事业,RAS技术将是您不可或缺的工具。联系Grace, 探索高效、环保、经济的养殖之道。

### 我们学院提供了独特的教育和培训:

**先进的技术重点:** 我们专注于教授RAS(循环水系统)水产养殖技术,为学生提供领先于时代的知识和技能.这使得我们的学生在就业市场上拥有巨大的竞争优势。

**实践导向的学习:** 我们的课程注重实践,提供丰富的实验室和场地实践机会.学生将在真实的养殖环境中学习和实践,为未来的职业生涯做好充分准备。

**从零起步,走向专业:** 无论你的起点在哪里,我们都能引导你达到专业水平.加入我们的教育计划,体验从初学者到专业人士的成长旅程.我们的课程设计针对不同学习阶段,确保每一步都实现个人和技术的提升。

**综合性课程设计:** 我们的课程设计涵盖了从基础知识到高级技术的全方位培训,确保学生具备全面的技能和知识.无论是理论知识还是实践技能,我们都致力于为学生提供最全面的培训。

**持续创新,不断进化的课程内容:** 我们的学院不断进行技术研发和课程更新,确保教学内容紧跟最新行业动态.我们鼓励校友回校复习,通过参与新课程或工作坊,掌握最新技术和方法.无论您是希望刷新知识还是拓展技能,我们都为您提供最前沿的学习资源。

### 课程与服务:

- RAS内循环室内养殖课程
- RAS设备供应
- 咸水鱼 / 淡水鱼
- 养殖场技术指导
- RAS养虾课程
- RAS养殖专用药类及营养品供应
- 鱼菜共生课程
- RAS养殖场建设及方案

Fertilizers & Nutrition 肥料及营养

FARMMATE MANUFACTURING (M) SDN BHD

Farmmate Manufacturing (M) Sdn Bhd introduces high-quality organic bio-fertilizers made from black soldier fly larvae, with added beneficial microorganisms, amino acids, humic acid, and bio-active carbon. Through three years of research and continuous improvement, the products have seen a tenfold increase in sales within a few months of entering the market.

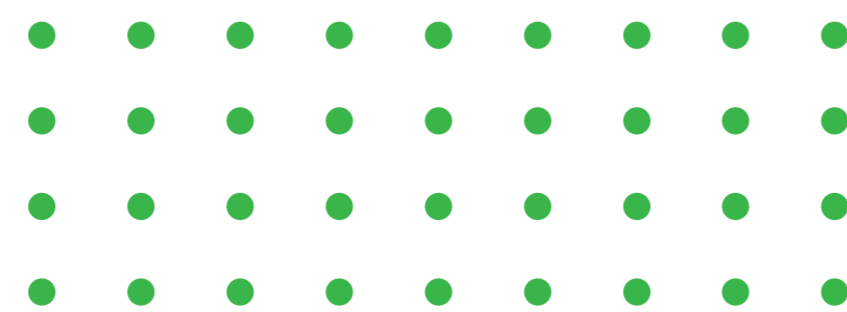

Our products also have quickly gained market share and become the first brand to receive two brand certification certificates for black soldier fly bio-organic fertilizers in Malaysia. Most farm and plantation have chosen to use this fertilizer as high value in organic matter which is more than 75%, experiencing outstanding results in increasing yield and improving quality, especially durian growers.

Beside of organic bio-fertilizers made from black soldier fly larvae, we also have Foliar Fertilizers- Amino-N Power, 2188 Algae Stimulant, K10 Seaweed Mineral Potassium Fulvic Acids and Seaweed Essence.

Overall, our products not only benefit crop performance but also contribute to sustainable agriculture by protecting soil and the environment

**FERTITRADE (M) SDN BHD**

Fertitrade (M) Sdn Bhd, a wholly owned subsidiary of Agromate Holdings Sdn Bhd, was established in 1981 and has since grown its presence across Malaysia and internationally in Asia, the Middle East, Europe, and Africa. Today, Fertitrade stands as a leading importer, exporter, producer, and distributor of high-quality fertilisers in Malaysia. Our extensive network of dealers and distributors enables us to supply a wide range of fertilisers—straights, mixtures, bulk blends, local, imported compounds, macronutrients, micronutrients, NPK water-soluble, and liquid foliar fertilisers—to farmers, estates, and government and private tenders.

Together with our Agromate Group, we meet close to 20% of Malaysia's fertiliser demands, particularly for corporate plantations. Fertitrade is a pioneer in importing and producing top-quality specialty fertilisers for hydroponic and fertigation growers. We have adapted and enhanced fertigation technology from Holland to suit Malaysia's agricultural conditions, working closely with farmers in Cameron Highlands for over three decades.

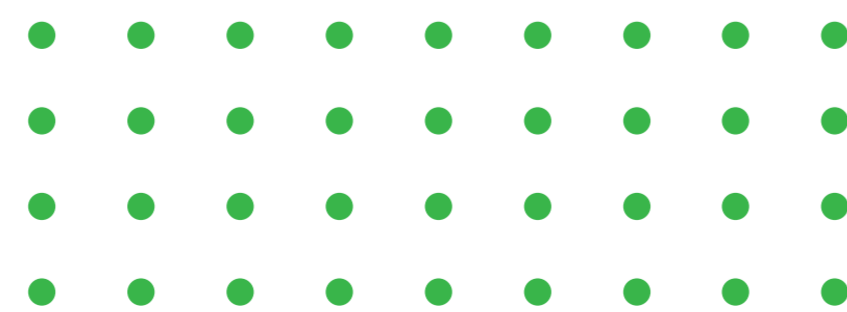

In addition to fertilisers, Fertitrade offers synthetic netting and related products to support agriculture, aquaculture, sports/recreational, industrial, and engineering sectors. We are committed to delivering innovative solutions and high-quality products to meet the diverse needs of our customers across various industries.

**HANNA INSTRUMENTS**

Founded in 1978, Hanna Instruments has rapidly grown to become the world's leading manufacturer of electro-analytical instruments.

We followed the strategic and direction from our Italy HQ, Hanna Malaysia opened its first sales office in Jalan Kewajipan on 18/8/1988. Years later due to business expansion and limitation of warehouse size, we moved to Jalan PJS with a much pleasant look and better managed new office. In 2015, we decide to relocate to our current semi-detached office in PJS 11/20 to better enhance our corporate image and to serve our customers better.

With products that are CE certified and manufactured in our ISO9001 facilities to meet the highest quality standard in the industry at competitive prices.

Sensitivity to customer needs, rapid response to market demands and a continuous commitment to expanding the product range has been the key factors in Hanna's success.

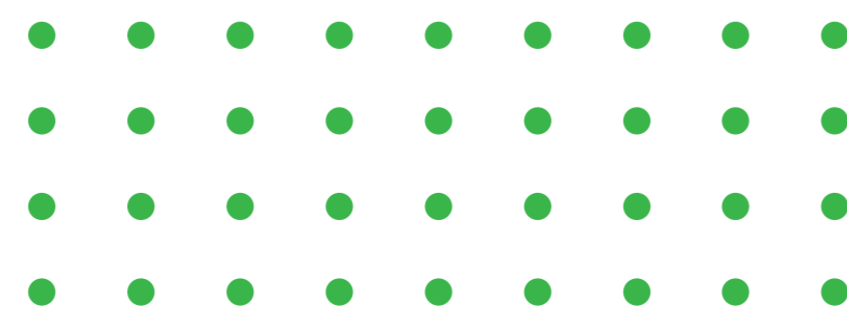

Every Hanna product has been carefully designed with the user requirements in mind. A wide variety of products, ranging from pocket testers to portable or bench meters and from process instrumentation to colorimeters or chemical test kits are manufactured to match the equally vast spectrum of user requirements. With all these products to choose from, you can be certain to find the right solution for your specific application.

ECO FOODSOFT (M) SDN BHD

iECO 蚯蚓肥是全天然有机肥的生产商，主要是以蚯蚓粪为主要原料在我们 iECO 的产品系列里。

iECO 一直致力于为客户提供高品质的产品和专业的服务。

iECO 蚯蚓肥的产品和服务旨在帮助您实现可持续农业的目标，提高农作物产量，改善土壤质量，并减少对化学肥料的依赖。

iECO 蚯蚓肥产品系列：

- iECO 蚯蚓肥（基肥）：为植物提供天然的腐植酸、有机质和微生物，奠定生长基础。
- iECO 蚯蚓肥（堆肥）：定期使用，维护土壤优质状态，适用于果树。
- iECO 蚯蚓肥（特级堆肥）：修复受损土壤，补充大树所需营养。
- iECO 蚯蚓肥 Turbo：促进果树健康生长。

全新 iGarden 产品系列专为家庭用户设计，提供家庭式包装，有六款选择，价格合理，适合不同需求的用户。

为什么选择我们？

1. 真正生态友好型的农业实践
2. 全马第一全天然有机蚯蚓肥专家
3. 100% 本地用心制作，诚实的服务
4. 系统化生产有机堆肥，产量稳定
5. 全马唯一受颁多项奖项认可的有机肥品牌
  - a. 受颁发大马 MTPN 消费者推荐奖 2022/23
  - b. 亚太 TOP 杰出品牌 2024/2025
  - c. 金牛奖 2023/2024
  - d. CSR Malaysia Awards 2023/2024
  - e. 南洋 100 品牌奖 2023/2024
  - f. JCI SDA 奖 2023/2024
  - g. SME 企业白金奖的卓越产品奖 2023/2024
  - h. SOBA AWARD BEST IN GREEN INITIATIVE & INNOVATION 2023/2024
6. 与多家政府部门合作的有机肥产品
7. 全马超过 1500 多家农业园主所认可和使用的
8. 全马有机原料最多样化之一的产品，营养更均衡

INO NATURE

INO Nature merupakan pengeluar baja yang bertujuan untuk mencipta ekosistem pertanian yang menyeluruh dengan menggunakan teknologi inovasi dan dedikasi kepada kelestarian alam. Bermula pada tahun 2006, kami berazam untuk meningkatkan hasil tanaman dan kelestarian pertanian melalui inovasi bahan dan teknik. Selepas lebih dari 18 tahun penyelidikan, kami berjaya memperkenalkan dan mempatenkan teknologi Baja Bio Semi-organik. Produk kami, yang dinamakan "Makanan Bumi", kaya dengan bahan organik, nutrien tanaman, dan microb efektif. Kami komited terhadap pertanian lestari dan berusaha untuk memperkukuh nutrisi tanaman, pengelolaan tanah, dan pertanian regeneratif. Usaha ini menunjukkan dedikasi kami untuk memajukan pertanian sambil memelihara alam sekitar untuk generasi yang akan datang.

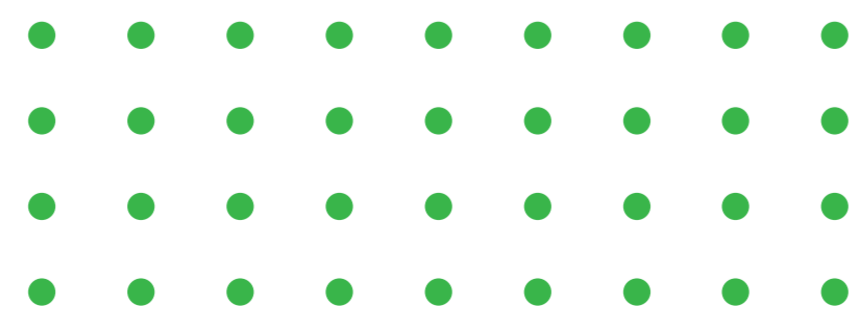

INO Nature 天地精华自2006年起致力于通过原材料和技术创新提升农作物产量及其可持续性，是一家专注于农业生态系统全面发展的肥料制造商。经过18年的研究，我们取得了生物有机复合肥料技术的专利，并推出了“大地粮食”，这是一种集有机物、植物营养元素、微生物和益菌于一体的创新肥料产品。我们的目标是通过创新技术和对可持续发展的承诺，推动农业领域的突破，特别是在植物营养学、土壤耕作及再生农业等方面。我们对可持续农业的深信不疑激励着我们不断前进，突破传统界限，为农业的未来贡献力量。

**KENSO**

Kenso was established in 1974 and is involved in the production and distribution of agrochemicals, fertilizers, and hybrid vegetable seeds. Our brand names “Golden Goose”, “Cap Bunga” and “Kenso Seeds” have become established as symbols of quality throughout time.

Our extensive product portfolio comprises a diverse range of high-quality agrochemicals, meticulously formulated to address the evolving needs of modern farming practices. From herbicides to insecticides and fungicides, our offerings are tailored to optimize crop health and yield. In addition, we take pride in our premium-grade organic and inorganic fertilizer ranges formulated to nourish crops and enrich soil fertility, ensuring bountiful harvests and long-term agricultural vitality. Kenso is also at the forefront of hybrid vegetable seed distribution. Our seed products are developed through stringent screening processes before being launched to provide farmers with superior seed varieties characterized by enhanced yield, disease resistance, and adaptability to local growing conditions.

Kenso has established a wide network of over 400 dealers in all states in Peninsular Malaysia and East Malaysia to enhance customer service and expand our customer base. With a firm foothold in Malaysia, Kenso has grown throughout the region. Kenso now operates overseas subsidiary businesses across numerous countries in Southeast Asia, China, Australia, New Zealand, and the United States. Our products are also present in many other countries across the globe under our customers’ packaging.

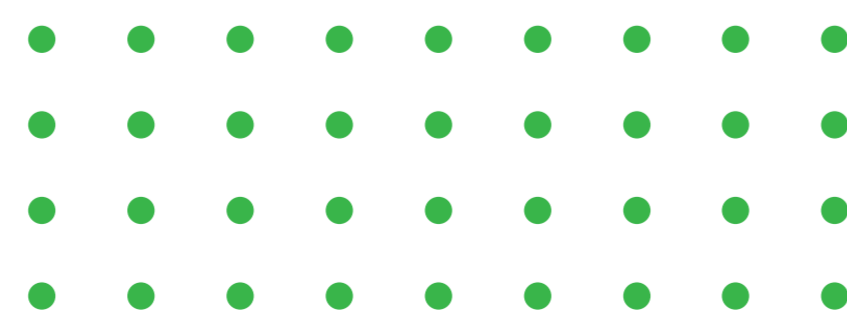

Kenso is an accredited member of the Malaysian CropLife & Public Health Association (MCPA). In our commitment to product excellence, Kenso invests in the latest equipment in our factories and laboratories to ensure that our products are of the highest quality. Our research laboratory has been awarded GLP certification by the Department of Standards Malaysia and our products are also manufactured under stringent quality control based on internationally accepted standards, ISO 9001:2015.

Driven by a passion for sustainable agriculture and a vision for a greener future, Kenso remains dedicated to fostering growth, prosperity, and resilience throughout the global agricultural community.

MUSANG VALLEY PLANTATION (MVP)

Musang Valley Plantation (MVP) stands at the forefront of agricultural innovation, employing IoT smart farming techniques to revolutionize durian cultivation. By leveraging real-time data on soil conditions, moisture levels, and temperature, MVP optimizes irrigation and minimizes disease risks, fostering sustainable practices and ensuring high yields. Furthermore, MVP's commitment to diversification, encompassing BIRDNEST farming and Albasia reforestation, not only bolsters sustainability but also establishes future timber sources for the furniture and construction industries. This multifaceted approach, combined with innovative gold investment strategies, sets a new benchmark for agricultural enterprises, epitomizing a forward-looking ethos in both farming and investment within a harmonious ecosystem.

Musang Valley Plantation (MVP) 站在农业创新的前沿，采用物联网智能农业技术彻底改变了榴莲种植业。通过利用实时数据监控土壤条件、湿度水平和温度，MVP优化灌溉，降低疾病风险，促进可持续发展实践，确保高产量。此外，MVP致力于多样化，包括燕窝养殖和Albasia快速生长森林种植，不仅增强了可持续性，还为家具和建筑行业建立了未来的木材来源。这种多方面的方法，再加上创新的黄金投资策略，为农业企业设立了新的基准，体现了一种前瞻性的理念，即在和谐的生态系统中进行农业和投资。

Solar Power System 太阳能系统

MY SYNERGY 02 SOLAR POWER SDN BHD

园地在偏僻的山芭里，要连接电源Sibeh麻烦！更可怕的事还要“花”一大笔钱

很多园主在不懂 My Synergy 3000W之前，都有类似的心声

但是当知道有这一套 #储电太阳能供电系统 之后，每个人都愿意尝试

而且装上后还发现，不只很方便，长期用起来根本就是 #省大钱！甚至有顾客说到吃了几十岁才知道什么是000电费

因为【My Synergy 3000W】有着 #自供自足 的强大Power #能应付员工宿舍的基本用电需求

作为专做太阳能节能 # 2017年开始推广的省电的 My Synergy 选用的是

全球Top 10 Quality双面采光板 + 全球领先光伏发电

效率更快！储电力会猛！重点耐用度够Strong,可长达20++年

My Synergy配合农业科技4.0的发展，将有更多技术融入其中,用来支持我国农业发展

我们希望帮助大马园主们，能更轻松扩大各自农业版图

所以推出了全马No.1 #先租后买配套 不用拿大资本出来，首8个月只需每个月供RM988，到第8个月只需付RM8

这套系统就完全属于你

不要一直在想好不好用，只有试过了才会知道到底多好用 因为我们是服务马来西亚全国各地最多果园太阳能供电的服务商的My Synergy 02 Solar Power Sdn Bhd

趁现在有提供免费7天试用

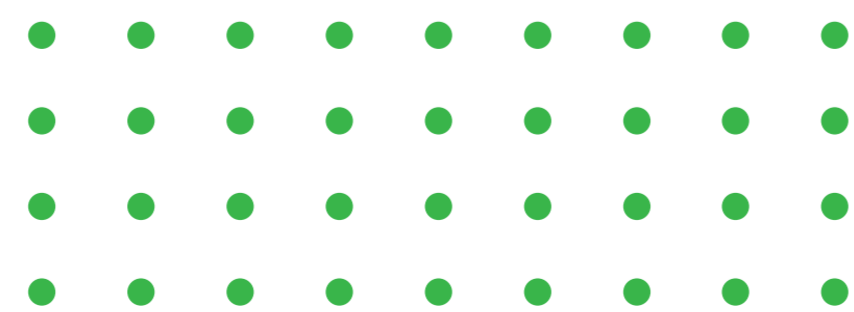

赶快把握机会【PM】了解更多吧

Innovation. Naturally.

**NUTRITION TECHNOLOGIES**

Nutrition Technologies is a biotech company manufacturing agricultural products that optimise productivity and minimise losses in **Malaysia's key agricultural sectors**. We are the **largest insect company in Asia and the biggest insect and frass producer in Malaysia**. We produce Black Soldier Fly **larvae as a protein source** for pet and aquafeed and **frass biofertilizers for agriculture**. We have the largest research team in the insect industry with **over 20 scientists** including 7 microbiologists / molecular biologists. The company rigorously tests the products using advanced biotech screening techniques, greenhouse trials and field trials. The company is proud of its research partnerships with key institutions across the region, aimed at developing cutting-edge products, with practical application guidance.

Nutrition Technologies currently offers two groundbreaking bio-organic fertilisers: **Diptia™** and the newly launched liquid biofertilizer, **Vitalis™**. Our Products, **Diptia™** bioactive fertilizer and **Vitalis™** bioactive spray are patent pending products derived from insect frass that have been fermented and enhanced with a **microbial inoculant** and **added insect chitin** to create highly effective **plant protection products**, designed specifically for Malaysian farmers.

**PANMATEX TRADING SDN BHD**

Panmatex Trading Sdn Bhd specialized in supplying Packaging, Supermarket Equipment, Material Handling and Machinery products. We are One Stop Shop, providing complete solutions, with dedicated service and maintenance support, tailored to meet the unique needs and requirements of our customers.

With over 40 years of establishment, our company has undergone a transformation since 2020, into supplying of packing machineries and packaging materials, especially for Produce & Fresh industry.

- PVC Film and Plastic Trays for Film Wrapping Machines
- Top Seal Film and Plastic Trays for Top Sealing Machines
- Vacuum Nylon Bags for Vacuum Packing Machines
- Netting, Clipping, Labeling for Net Packing Machines

This transformation has enabled us to cater in diversify packaging needs with precision and efficiency for our valued customers.

Lab Testing Services 实验室检测服务

**PRECISION AGRICULTURE RESEARCH SDN BHD**

Precision Agriculture Research Sdn Bhd is an independent commercial laboratory located in Port Klang with a focus on the agriculture and fertilizer industries. We offer fertilizer, soil and leaf analysis testing.

As of September 25, 2023, Precision Agriculture Research Sdn Bhd has been accredited under MS ISO/IEC 17025:2017 for the scope specified in the schedule. We constantly guarantee our complete dedication to quality control and adherence to SAMM guidelines and standards.

Our staff of chemists and lab technicians who hold degrees from local universities, is technically competent to conduct the testing in compliance with the established test method. With the use of state-of-the-art tools and readily accessible resources, we can deliver precise results within a fast turnaround time.

In order to assist clients in determining the nutrient levels or other particular conditions for their plants, our team will test samples of soil, fertilizer, or plants. This will allow customers to make well-informed decisions about their plantations and the best fertilizer products to use.

# Lab Testing Services

Need to test for fertilizer, soil, leaf ?  
Send sample to us

Test parameters include:

Fertilizer

N, P, K, MgO, B, Ca, Mn, Cu, pH, etc

Soil

CEC, Exchangeable cation, EC, etc

Leaf

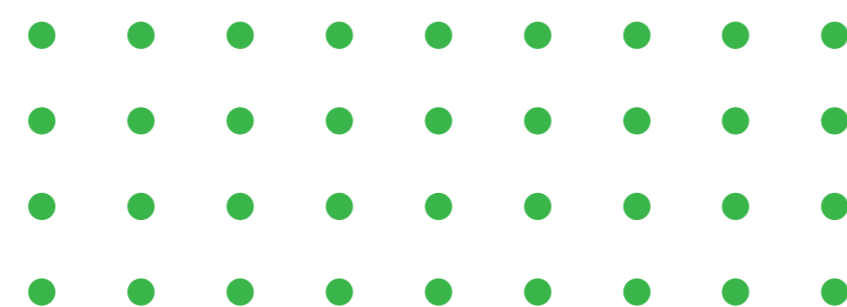

N, P, K, Mg, B, Ca, Cu, Zn, Mn, etc

PROMAX AGRO

PROMAX AGRO中文名“三豐”寓意天、地、人丰盛、丰收。我们，PROMAX AGRO坚信要让农民达到作物高品质与高产量的水平，从土壤团粒结构养成做起，土壤团粒结构使土壤有充足的空隙：其增加通气；储水；储肥；生物量。土壤团粒结构的养成，以加入全腐熟的有机肥是最为迅速的。PROMAX AGRO 的研发团队，历时了十六个月，让这包有机肥以堆肥的方式，在十六个月的岁月里充分发酵，这包全腐熟植物性生物有机肥（C/N803）孕育了大量的有益微生物。C/N803是“C/N Ratio <8”的意思，即产品因高腐熟度，施用过程温和且不酸化土壤，能快速被根系吸收利用。C/N803有机肥系列结合了前沿的技术与经田间试验证实的效果，现已广泛应用于榴莲；油棕；果树业。经特别配制的C/N803系列分别为：C/N803和C/N803-PALM。

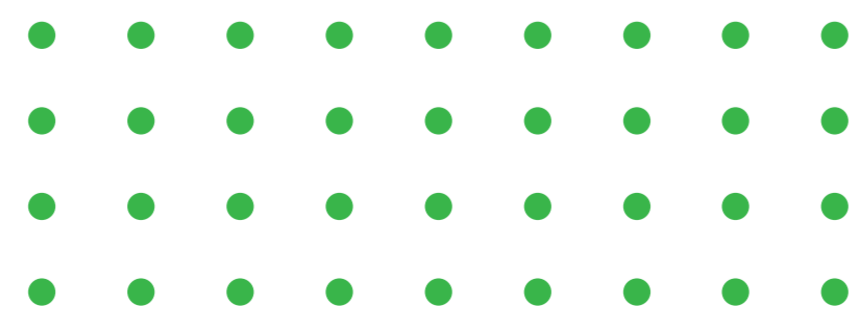

PROMAX AGRO, known as ‘Sanfeng’ in Chinese, embodies the essence of heaven, earth, human prosperity, and abundant harvests. At PROMAX AGRO, we are dedicated to assisting farmers in achieving high-quality and high-yield crops by focusing on the development of soil structure. This approach ensures ample space in the soil, enhancing ventilation, water storage, nutrient retention, and biomass. The most rapid formation of soil structure occurs with the addition of fully decomposed organic fertilizer. The Research and Development team at PROMAX AGRO dedicated 16 months to fully ferment organic fertilizer in the form of compost. This resulted in a fully decomposed plant-based bioorganic fertilizer known as C/N803. This fertilizer, with a C/N Ratio <8, fosters a large number of beneficial microorganisms. The term ‘C/N Ratio <8’ indicates that the product can be rapidly absorbed and utilized by the root system. Its high maturity and gentle application process avoid soil acidification. The C/N803 organic fertilizer series, a result of advanced technology and extensive field experiments, has found widespread application in durian, oil palm, and other fruit tree plantations. The specially formulated C/N803 series includes C/N803 and C/N803-Palm.

**SANYEONG AGRICULTURAL SOLUTIONS SDN BHD (DJI AGRICULTURE MALAYSIA)**

Sanyeong Agricultural Solutions Sdn Bhd, founded in 2016, is the pioneer and leading agriculture drone distributor and service provider in Malaysia. Sanyeong has been appointed by DJI Agriculture as Exclusive Distributor to distribute DJI Agras series products in Malaysia. DJI is the global leader in drone industry with more than 78% of global market share.

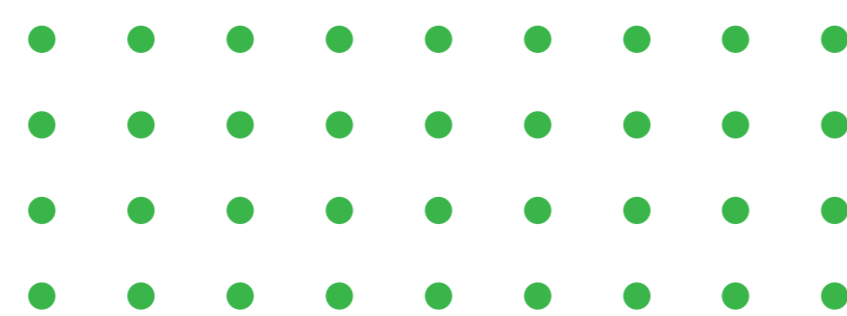

Since 2016, Sanyeong has been specialising in agricultural technology, introducing and providing drone solutions to local farmers and plantations in Malaysia. Besides drone distribution, Sanyeong also offers local After-sales services for DJI Agriculture drones such as maintenance, repairs and warrant for agriculture drones, professional drone training, as well as aerial or drone spraying services. To-date, Sanyeong and its dealers have over 11 branches of DJI Agriculture 3S Centres (Sales, Service & Spare Parts), covering the whole Malaysia to offer the best products and services to local clients.

We are committed to assisting farmers and plantations in making the transition from traditional crop spraying method to a more accurate and sophisticated form of application using agriculture drone. We provide nothing but the greatest fleet of intelligent spraying drones to ensure aerial application is carried out in the most efficient and cost effective way possible, since we believe that the proper instruments get the job done. Sanyeong also consistently innovate for more drone spraying solutions in different kind of crops to help farmers in enhancing their farming process so that low wastage and maximum yield can be attained.

Sanyeong believes in a bright future, one where drone technology helps agriculture industries and create a productive and sustainable world. Our team is committed to provide professional advice, trusted after-sale technical support and proven solutions to ensure our customers make the most of drone technology.

关于我们

自2016年成立以来，Sinar Sri Kesang Enterprise私人有限公司一直积极推动成为马来西亚农业经济发展的重要贡献者。

凭借其充满活力和创新的观念，该公司在短时期内取得了相当大的增长。在全马各州设有代理商及砂拉越州自营品牌店，进口高端肥料、农药和农业机械设备。

2024年初荣获德国BASF与中国瑞象农业合作生产DMPP肥料及液体肥授权马来西亚代理，高品质与高效益的一系列产品在推出市场后短期内受各地农民追捧。

该公司由经验丰富的农业专业人士领导，在各种作物的种植方面具有广泛的技术知识。

**SUSTAINAL ECO SDN BHD**

Sustainal Eco Sdn Bhd 是马来西亚独具特色的生态公司，致力于通过生物防治技术解决农业病虫害问题。我们以“虫治虫”的理念为基础，利用天敌商品化生产和生物防治技术，在农业生产中发挥着重要作用。

公司在天敌商品化生产和生物防治技术领域拥有领先地位，不仅研发并生产多种寄生性和捕食性天敌昆虫及螨类，还在有益瓢虫的规模化生产方面取得成功。我们的产品广泛应用于温室、农田、果园和林地等领域，在农业病虫害无公害防治方面表现突出。

其中，我们的捕食螨针对马来西亚最普遍和数量最多的害虫，如蓟马、红蜘蛛和白粉虱，展现出高效的控制能力。而寄生螨则专门针对榴莲树的蛀心虫、蛀果虫等害虫，通过其高效的寄生能力，为榴莲产业提供了全新的解决方案。

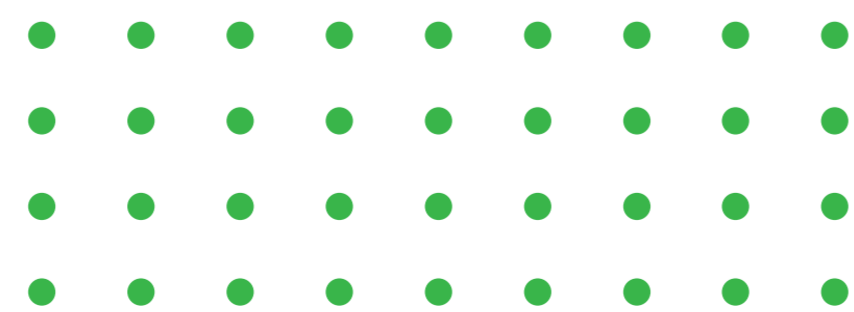

通过引入这些天敌，我们不仅能够实现对害虫的有效控制，而且可以减少对化学农药的依赖，降低环境污染和对人体健康的风险。这种生物防治方法既环保又可持续，为农业生产提供了一条健康、安全的道路。

**U&US SOLUTION SDN BHD**  
**U&US AGRO SDN BHD**

Durian merupakan salah satu pokok berbuah yang terbesar di dunia dan mempunyai kemampuan untuk mengeluarkan hasil yang tinggi. Oleh itu, amalan pembajaan sangat mempengaruhi kualiti dan kuantiti buah yang dihasilkan. Baja Lepas Perlahan Greenfeed® merupakan baja yang dapat membekalkan kesemua tumbuhan, reproduktif dan sebagai penggalak buah. Melalui teknik PCT, menyerap nutrisi dapat ditingkatkan dengan lebih baik berbanding baja biasa. Greenfeed® juga membantu meminimalkan pelbagai isu seperti bebanan pembajaan dan kekurangan tenaga buruh.

榴莲是世界上最大的热带果树之一，能够生产大量果实。因此，对应的施肥方式对果实质量和数量有很大的影响。大力丸缓释复合肥是一款含有全营养元素的肥料，提供充足的养分给作物营养生殖生长。通过采用PCT技术，大力丸的吸收率比一般常规肥料高。

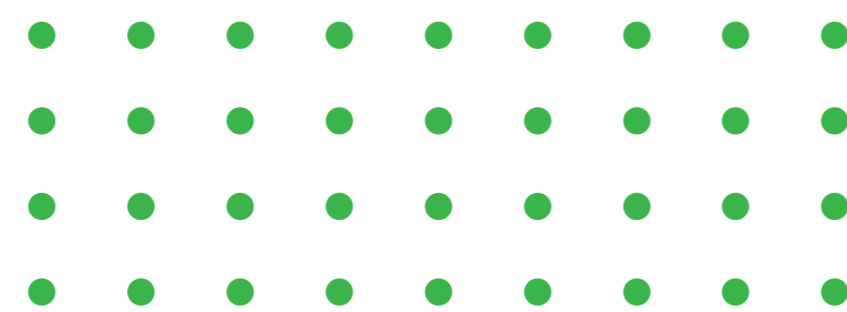

Greenfeed menawarkan baja lepas perlahan berkualiti tinggi dengan integrasi teknologi canggih. Produk Greenfeed memberikan penyelesaian yang sempurna dan baja terbaik kepada pengusaha untuk memperoleh hasil yang optimum daripada tanaman mereka. Dari tanaman pot hingga tanaman besar, produk Greenfeed memberikan nutrisi yang tepat dan penyelesaian nutrisi tanaman yang dikhususkan untuk memberi nutrisi kepada setiap keperluan tanaman dan sekaligus memaksimumkan hasil. Dengan ini, amalan pertanian yang persis dan lestari dapat dicapai oleh pengusaha.

Greenfeed采用先进技术来提供高质量缓释肥料，为种植户提供定制解决方案和良好肥料，以改善作物营养生长和提高作物产量。从盆栽到果树，Greenfeed产品提供了各种作物营养解决方案，以适应作物的需求，并最大限度地提高产量，同时实践精细和可持续农业发展的愿景。

Fertilizers & Nutrition 肥料及营养

**URBAN GREEN AGRITECH**

Urban Green Agritech, is dedicated to environmental sustainability and agricultural advancement. Our primary goal is to convert agricultural waste into high-quality microbial organic fertilizers, marketed under the brand “**First Green**,” to meet the growing demand for sustainable agricultural solutions.

First Green microbial organic fertilizers are carefully formulated to be completely organic, making them suitable for a wide range of agricultural crops.

We utilize innovative Rapid Thermophilic Digestion System (BRTDS™) Technology to emphasize organic waste recycling and enhance fermentation efficiency using bio-enzymes. Our High Efficiency Fermentation Agent (HEFA) enzyme cocktail, containing naturally derived enzymes and microbes, accelerates the thermophilic/aerobic digestion process, ensuring a consistent and stable fertilizer output.

Our company, managed by a diverse team of experts, collaborates with commercial institutions to enhance fertilizer quality. Our composting system and technologies undergo rigorous testing by research teams and commercial sectors to ensure functionality, efficiency, and practical application.

By choosing First Green fertilizers, you’re not only investing in immediate success but also in the long-term health of your land and the environment.

Join us in this green revolution, where every harvest reflects our commitment to sustainability and responsible growth.

# UNLOCK Natural's Growth Elixir!

FIRST GREEN BIO-ORGANIC FERTILISER, HARVEST WITH JOY

**and Earth Conscious**

### Key Features

- ✓ Enhance and restore soil fertility
- ✓ Reduce chemical fertilizer use
- ✓ Promotes growth and development of plants and crops
- ✓ Enhances soil's ability to release natural nutrients
- ✓ Increase crop yields while reducing the environmental impact of excess nutrient loss

WASTECH

Wastech was founded in 1984 when the directors with engineering backgrounds then saw the need to transform agricultural waste into organic fertilisers with the intention to develop a product that can allow agricultural customers to increase yield and reduce their environmental footprint at the same time.

Their passion for innovation, led them to discover additional ways to maximise agricultural yields feasibly by means of irrigation. Within four years, Wastech Engineering was formed to include the design, supply and installation of irrigation systems. Wastech Engineering has since also diversified into landscape and commercial applications of irrigation systems.

Within four years, Wastech expanded to include the design, supply and installation of irrigation systems for agriculture and has since diversified into landscape and commercial applications of irrigation systems.

Since then, Wastech has aspired the need to maximise agricultural yields with minimum efforts by providing precision agriculture solutions.

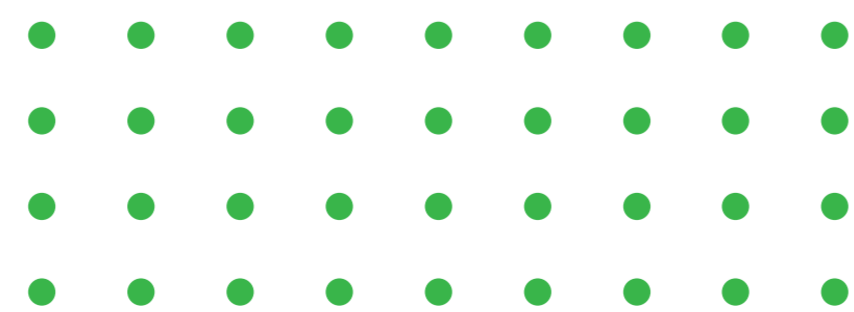

Wastech's businesses has grown into agile fertiliser and irrigation engineering provider through 3 subsidiaries, Wastech Multigreen Sdn Bhd, Wastech Engineering Sdn Bhd & Wastech Engineering Int' Ltd which is based in Hong Kong.

Today, Wastech's culture of precision and attention to details have created an esteemed network of trusted partners from around the globe that flourished into an unwavering growth towards the vision of sustaining life with precision agriculture.

Aquaculture 水产养殖

**YHL FOOD GROUP**

YHL食品集团致力于发展可持续性水产养殖综合产业链。我们秉持着“保护海洋，从我做起”的宗旨，以坚持稳健、勤奋和专业的态度，致力于培育和完美绿色水产养殖产业，旨在减缓捕捞对海洋生态系统的持续影响。除了我们在南美白对虾种虾基因研究与繁育中心、孵化与育苗场，以及养殖场的投资之外，我们还自主研发与应用了智能水产养殖方案。务必让养殖更科学、安全与方便。

此外，我们还于2023年涉足黑虎虾种虾基因研究和生蚝育种技术开发。并正着手建立一个以可持续水产养殖为中心的生态旅游园，旨在直接向公众传达绿色、可持续水产养殖的原则。

我们坚信，通过全面的产业链规划，我们可以带领更多的水产养殖从业者采纳我们的绿色、可持续水产养殖模式，共同扩大这种实践的市场，并最终实现我们的愿景：“保育亿万海洋生物，让海洋重现蔚蓝！”

The YHL Food Group is dedicated to advancing Sustainable Aquaculture Integrated Supply Chains. Guided by the motto “Saving the Ocean, Starts with Me!” we uphold a steadfast, diligent, and professional approach to fostering and refining the Green Aquaculture Industry, aiming to mitigate the continual impact of fishing on marine ecosystems.

In addition to our investments in the Penaeus Vannamei Broodstock Nucleus Centre and breeding centre, hatcheries, nurseries, and farms, we have also independently developed and applied intelligent aquaculture solutions. Our aim is to make aquaculture more scientific, safe, and convenient.

Furthermore, in 2023, we ventured into genetic research on black tiger shrimp and the development of oyster breeding techniques. Additionally, we are in the process of establishing an eco-tourism park centered around sustainable aquaculture, aiming to directly communicate the principles of green and sustainable aquaculture to the public.

We firmly believe that through comprehensive industry chain planning, we can lead more aquaculture players to adopt our green and sustainable aquaculture model, collectively expanding the market for such practices, and ultimately realizing our vision of “**Protect Billions of Marine Life, Let the Ocean Blue Again!**”

**RM4 MILLION Integrated Multi-Trophic Aquaculture System**

YHL Aquatic's Integrated Multi-Trophic Aquaculture (IMTA) System project aims to revolutionize aquaculture by combining sustainability and efficient resource utilization. Located in Bio Desaru, Malaysia, this 226-acre farm integrates shrimp, oysters, milkfish, and tilapia within a self-sustaining ecosystem.

9-acre wastewater treatment area with milkfish and oysters for efficient water recycling.

Development of aquaculture feed using Black Soldier Fly larvae protein, reducing overfishing and bycatch. Aligns with UN SDGs 14 (Life Below Water) and 15 (Life on Land). Efficient water use, marine ecosystem protection, and terrestrial ecosystem conservation. Economic benefits through diversified aquaculture. Community engagement and sustainable development.

**YHL Future Directions:**  
The project sets industry-leading standards for sustainable aquaculture. YHL Aquatic plans to inspire others, optimize the IMTA system, and continue community engagement for a sustainable and responsible aquaculture industry.

**Our Vision**  
Protect billions marine life, let the ocean blue again. | Make our team proud, full of love and satisfaction.

**YMWOO CORPORATION SDN. BHD.**

Since 1988, YMWOO has been at the forefront of agricultural innovation, providing cutting-edge solutions to enhance farm efficiency and ecological balance. Our mission is to empower the agricultural sector with advanced, research-backed products and services that ensure maximum yield with minimal environmental impact. We pride ourselves on fostering long-term relationships with our clients, offering comprehensive support and education to drive the success of each agricultural endeavor. Choose YMWOO for sustainable growth and a legacy of excellence in agriculture.

Sejak 1988, YMWOO telah menjadi peneraju inovasi pertanian, menawarkan penyelesaian canggih untuk memperkasakan ladang dan memelihara alam sekitar. Misi kami adalah untuk melengkapkan sektor pertanian dengan produk dan perkhidmatan berteknologi tinggi yang disokong penyelidikan, memastikan hasil maksimum sambil mengurangkan kesan alam sekitar. Kami memupuk perkongsian jangka panjang, menawarkan sokongan dan pendidikan komprehensif untuk memacu kejayaan setiap usaha pertanian. Pilih YMWOO untuk pertumbuhan lestari dan warisan kecemerlangan dalam bidang pertanian.

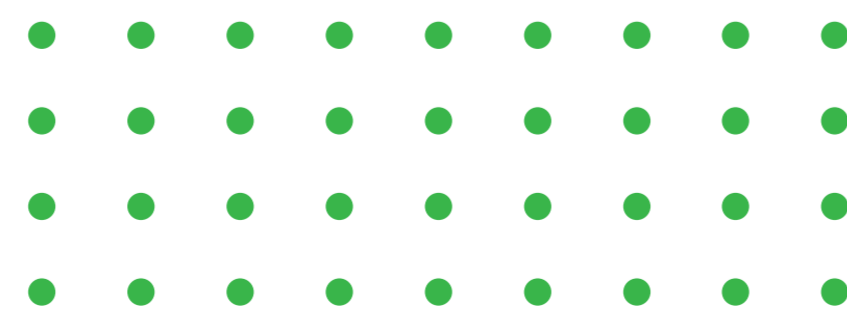

自1988 年以来, (YMWOO) 一直是农业创新的领军企业, 提供尖端解决方案, 助力农场发展并保护环境。我们的使命是为农业部门提供由研究支持的先进产品和服务, 确保在最大限度减少环境影响的情况下实现最大产量。我们致力于建立长期伙伴关系, 提供全面支持和教育, 以推动每个农业企业的成功。选择(YMWOO), 实现可持续增长, 打造农业卓越的持久传承。

Aquaculture Equipment 渔业设备

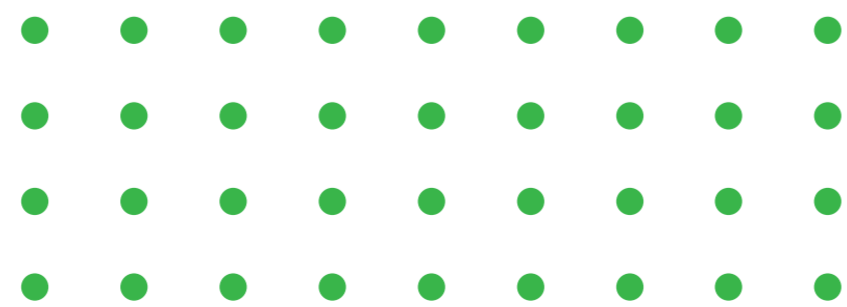

ZHEJIANG HANGFENG MACHINERY CO.,LTD

Shaoxing Hangfeng Machinery Co.,Ltd located in beautiful city Taizhou, China. As a professional aquaculture machine aerator manufacture, the company always focus on the "integrity, practicability, innovation" as the manage idea. The company owns the perfect production facility, including the inspection and test equipment. The daily out put over 300 sets, and test each machine when finished, make sure all pass the test and guarantee the quality. The products have good reputation both in China market and oversea, South est Asia, The middle east, Latin America etc. The products including the paddle wheel aerator, air pump aerator, Jetting aerator, Diesel engine aerator, water pumps etc.

Zhejiang Hangfeng Machinery Co., Ltd. is located in Fengjiang Youth Industrial Park, Luqiao District, Taizhou, the capital of agricultural machinery and aquaculture machinery in China. Our company is a professional manufacturer of agricultural and aquaculture machinery that integrates scientific research, manufacturing, and sales. The enterprise has passed the ISO9001:2008 international quality system management certification, and multiple products have obtained CE certification. Multiple products have obtained national utility model design and invention patent certificates. The product is popular all over the country and exported to Southeast Asia, the Middle East, Europe and other countries and regions, and has a high reputation among users

And popularity.

Our company's product quality is reliable, with high requirements for product design, reasonable arrangement of process flow, and strict testing as the foundation of our product quality. Due to our company's advanced mechanical processing technology, all major components are completed in the factory, ensuring the comprehensive implementation of quality management details. Due to our company's location in the largest raw material, auxiliary material, and equipment market in eastern Zhejiang, the cost of raw materials is low. Moreover, our strong processing ability gives us a significant advantage in production costs, and our product prices are highly competitive and attractive.

We will continuously provide users with higher quality, more efficient, energy-saving and environmentally friendly agricultural and fishery machinery products as our responsibility, strive to build a Chinese national brand, improve the level of agricultural and fishery machinery and equipment in China, and strive to achieve industrial service to the country.
